AG CHEM SPECIFIC PROGRAM

How does it work?

RETURNnet SYSTEM

AGRIBC

Typically Starts with an audit of participating Clean Tide Facilities

RETURNnet SYSTEM

AGRIBC

What have they found?

- **Facilities that are set up with AG in mind**
- **Recycling areas 100% contained**
- **Triple Rinse Capabilities**
- **Health and Safety Adherence**
- **Industry Leading Reduction Equipment**
- **Rinsate segregated, properly stored and properly disposed of**

Next Step: Logistics

How to get composite IBCs, mini-bulks, drums and jugs picked up quickly from across North America

Returns are intiated by end users:

1. Going to www.returnnetsystem.com
2. Calling 1-888-758-SHIP
3. Faxing in their activation form.

RETURNnet SYSTEM

AGRIBC

We aren't sure whose IBCS we have!

No problem…

1. **we take all manufacturers**
2. **distribute a policy flier to every emptier**

[redacted]s and

ALL CPS IBCs CAN BE RE-TURNED WHEN EMPTIED.

CPS has audited each of IBCNA's cleaning locations to ensure environmental compliance.

As part of CPS's commitment to lead stewardship within the agricultural pesticide industry, CPS has implemented a container recycling program with CleanTide Container, Inc.

'EMPTY' Definition:
All wastes have been removed that can be removed using the practices commonly employed to remove materials from that type of container, e.g., pouring, pumping and aspirating, and no more than 0.3 percent by weight of the total capacity of the container remains in the container or inner liner if the container is greater than 119 gallons in size.

The container returning system is the most user friendly return program in the world.

CleanTide Container's ReturnNet® System is free for cage totes and a nominal fee for other containers.

cleanTide CONTAINER

IRC NORTH AMERICA

[redacted]

Today's global economy demands global solutions and that's the essence of the ReturnNet® System, worldwide, on-demand retrieve, cleaning and reuse system. ReturnNet System's® processing and recycling centers throughout North America, Europe, Asia and South America make the Passport IBC the convenient - and environmentally responsible - choice for industrial packaging.

SMALL CONTAINERS

CleanTide can also manage any size poly drum at a nominal fee and any of the smaller jugs for free. The small jugs (1gallon - 10gallon) need to be triple rinsed and bagged or put into cage totes with the tops cut off.

RETURNnet® SYSTEM

- Any IBC or Plastic Drum accepted. IBC North America will accept not only IBCs that were used by CPS, but any empty IBC or plastic drum you would like recycled. Once pick-up can take care of all of your empty packaging needs.
- New emptiers. Call IBCNA at 888-758-7447 for program information and start-up.
- Existing emptiers. For caged totes, access the ADN website and select IBC Container Recycling. For all other containers, contact Linda Hendrickson @ (970) 685-3557 or by e-mail @ linda.hendrickson@cpsagu.com

Composite IBCs
