Agricultural Field Crops Pesticide Fees

13 MACA States

Current as of April 16, 2014

HEADING DEFINITIONS:

- **State –** respective 13 states in MACA region
- **Pest. Reg.** – Pesticide Registration
- **Pesticide Special Taxes –** fee charged at time of registration for a specific effort. Product cannot be registered in the state without paying the special tax.
- **Comments** – explains the special tax or any other special things related to pesticide registration.
- **Pesticide dealer or business facility license** – different states use different terms but generally refers to a special license that either the dealer or facility must have in order to operate.
- **Private applicator license (farmer)** – this is only for farmers or producers.
- **Com**. **Appl. License** – Commercial Applicator License
- **Noncom**. **Appl. License –** Noncommercial Applicator License
- **Public & Commercial Not for hire License** – generally this is for public employees such as state or school districts and other "not for hire" entities.
- **Operator license** – varies from state to state. In Illinois it means the person who drives the spray rig. A licensed commercial applicator has determined and loaded the appropriate spray mixture.
- **Sales Tax Charges** – this is for purchase of pesticide products by farmers for agricultural production purposes.
- **NA** – Not applicable.

STATE NOTES:

Iowa – license required for manufacturer and distributors not engaged in retail sales - $25/location.
Iowa – natural products are exempt from registration fees, but must still register, if the sales are less than $20,000 in state and no similar product is registered in the state and a substantial amount of active ingredient is naturally occurring substance such as plant or animal and the oral lethal dose 50 has to be 5,000 milligrams/kilograms or greater. On line registration for pesticide licenses and applicators now authorized.
Illinois - $300 experimental permit fee that the registrants pay if they want to apply for an experimental label use. Also, the retailers have a new $100 fee paid once every 5 years for their pesticide containment permit.
North Dakota – Environmental and Rangeland Protection Fund (EARP) provides funding for several programs including pesticide and pesticide container collection, noxious weed program, groundwater testing, pesticide enforcement, and minor use to perform research on minor crops and use.
Nebraska – new aerial business license now is $100 for an annual business license
Wisconsin – renewal fees are based on the preceding year's gross sales in Wisconsin using the following scale beginning October 1, 2007:
Greater than $75,000 – $3,060 plus an Agri Chemical Cleanup Program (ACCP) surcharge of 0.75% and 0.2% Ag Chemical Management fee for a total of 0.95%.
